

We'd like to come and tell you what it's like to have aphasia...

Our **Aphasia Ambassadors**, led by people with aphasia and supported by volunteers, would love the chance to talk to your group.

9 out of 10 people have never heard of aphasia

350,000 people in the UK live with aphasia

One in every three strokes results in aphasia

Aphasia is a communication disability caused by stroke or other brain injury and there are over 350,000 people in the UK who live with the condition.

People with aphasia have difficulty in speaking, reading, writing and understanding what is said, and this can cause intense frustration and isolation.

Dyscover is a charity providing long-term support and opportunities to people with aphasia and their families.

We hope that by increasing awareness and understanding of aphasia, we might make life easier for people with this disability.

We can tailor our presentation to fit your needs, so contact us at info@dyscover.org.uk or on **01737 819419 ~ Thank you**
