

Conversation Partners' - an SLT- led course for couple living with aphasia

Our popular 6 week course is led by 2 of our Speech and Language Therapists, and is focussed on providing practical help and encouragement to couples who are learning to live with aphasia. We use video and practice conversations, and provide opportunity for relatives to share experiences and suggestions. The aim is to understand more about aphasia and how to improve the success and enjoyment of conversation.

The course comprises 6 two hour sessions

We like to keep the course small with a maximum of 6 couples attending

Course outline:

- Week 1 Understanding Aphasia
- Week 2 What is conversation?
- Week 3 Focus on getting the message across
- Week 4 Practising strategies
- Week 5 Planning conversation
- Week 6 Sharing your knowledge with others

Courses are run according to need. Please contact us to find out when the next course is scheduled to run.
